Both 1st and 2nd Grant applications are submitted to a procedure including three successive electronic validations on the dates which will be indicated on the F.R.S.-FNRS website when the call is published:

- a) The validation by the applicant: it accounts as a confirmation that the application file is complete.
- b) The validation by the promoter selected pursuant to article 2: the F.R.S.-FNRS transfers the application file to promoters so that they give their approval for the submitted research project and confirm the accuracy of data provided by the applicant. The promoter may accept or refuse the application.

The academic authority may accept or refuse the application. The validation deadline fixed for the rectors puts a final end to the call for proposals.

Applications that have not been validated within the time-frame of the call cannot be taken into account.

A mini-guide specifies the validation dates as well as the documents which must be included in the application.

Article 9

Article 14

FRIA Grantees may not be a member of the scientific or academic staff in a university or an academic institution, and may not receive any remuneration or salary.

However, the FRIA may, upon request, authorise them to receive full or part of the allowances that they may be entitled to have to study abroad.

FRIA Grantees may not carry out any professional activity and may not receive any remuneration or salary.

Article 15

Article 24

To that end, FRIA Grantees shall give prior notice to their promoter and the FRIA of the starting date of their leave.

The Fund gives the FRIA grantee in the situation mentioned above an extra payment to the indemnity provided by the mutual insurance company in order to compensate for the loss of income.
